

8" TWO WAY 80W WALL MOUNT LOUDSPEAKER

WS-80/T

DESCRIPTION:

The WS-80/T is a wall-mounted loudspeaker with a built-in 70V/100V transformer. The 70V/100V transformer technique reduces line losses over long distances and makes parallel connections of multiple loudspeakers simple. With its built-in 8"+ 2" speakers, it delivers a wide frequency response from 100Hz to 17KHz. Its RMS power output of 80 watts makes it suitable for most applications. In addition to the black grille, the ABS enclosure and stainless mounting bracket are made of stainless steel. Easy and secure wall mount installation through the supplied mounting bracket. Suitable for commercial and industrial applications in hotels, schools, shopping malls, offices, and factories where background music and paging are needed.

All HEINRICH speakers are compatible with EASE, CATT, and ULYSSES models for acoustic studies. By simulating sound quality and distribution, the acoustic model can be used to determine how well the installation will work. A test procedure has been implemented to ensure that HEINRICH loudspeakers comply with the LOW VOLTAGE DIRECTIVE (BS EN 60065, 2003) and EMC regulations (BS EN 61000-6-Part 1/2/3/4).

FEATURES:

- Built-in 100V/70V transformers.
- Easy & secure Wall-mount installation.
- 8" two way wall mount loudspeaker.
- RMS 80W @100V.
- Metal grill, ABS enclosure & stainless mounting bracket.
- Excellent sound quality in an economy range speaker
- 360 degree rotatable mounting bracket is supplied

8" TWO WAY 80W WALL MOUNT LOUDSPEAKER

SPECIFICATION:

Model	WS-80/T
Power Taps @100V	80W
Power Taps @70V	40W
Impedance	Black: Com, Red: 330Ω
SPL (1W/1M)	94dB
Max. SPL (Rated W/1M)	113dB
Frequency Response (-10dB)	100Hz - 17KHz
Speaker Driver	8" x 1-2" x 1
Finish	Baffle : ABS Black/White Grille: Steel, Black/White
Mounting	Mounting Bracket Fixed by Screw
Dimension	380 x 227 x 218mm
Weight	6.2kg

Dimensions:
