

H15-2S High End 15" Professional Loudspeaker Subwoofer

H15-2S

DESCRIPTION:

The H15-2S is a high-power bass loudspeaker for use with external power Amplifiers, frequency crossovers and controllers. The functionality of H15-2S is based on the backloaded dual port technology, that is also a design by HEINRICH Limited already established and proven in the professional Audio field more precise bass reproduction through controlled transient response and an extremely deep cabinet tuning are the benefits of the technology when compared to simple bass reflex contractions. The powerful 15" 2 Loudspeaker with its high efficiency factor that very linear cone excursion generates the high quality and performance of the H15-2S.

FEATURES:

- Adopting 15" subwoofer with 2 unit.
- The speaker is made from plywood of 18mm, with wear-resistant spray paint processing and Anti-dust mesh cotton, which is very light and elegant.
- Large phase inversion unit can reduce distortion factor.
- Jack on top with a diameter of 35 mm can be mounted by column.

SCOPE OF APPLICATION:

It is very suitable for music bar, Auditorium, upscale conference room, multi-function room, etc
