

Wired Handheld Microphone

HM700H

DESCRIPTION:

Heinrich's HM700H Professional Microphone with Flexible Steel Nets is designed for superior performance and durability. The cable is constructed with strong anti-broken materials, ensuring longevity and reliability. The microphone provides clear and powerful sound, with excellent high-frequency transient response to address the needs of singing enthusiasts, especially in high-frequency areas.

Ideal for professional performances, KTV singing, and high-end speech environments, Heinrich's microphone cable is the perfect choice for those seeking uncompromised audio quality and durability.

FEATURES:

- Flexible steel nets with non-deformation and shatter-resistance advantages.
- Connected strong anti-broken microphone and durable.
- The sound is pure and powerful.
- Good high-frequency transient response, can cope with the problem that singing enthusiasts are inactive in high-frequency areas.
- Suitable for professional performances, KTV singing, and high-end speech circumstance.

Wired Handheld Microphone

SPECIFICATION:

Model	HM700H
Transduction Theory	Moving Coil
Acoustics Theory	PG(Pressure Gradient) Receiver
Adapterization Type	Dynamic cardioid polar pattern
Frequency Response	40Hz-18KHz
Impedance	600Ω
Sensitivity	2.1mV/Pa
Connection Port	XLR
Forward to back Resistance	>20dB
Weight	350g
Dimension	47 mm x 198 mm
