Data Converter

MVC-DC

DESCRIPTION:

The data converter is used to convert TCP/IP data and RS422 one for long distance use, which could work together both with voice panel and wireless program control panel synchronously.

FEATURES:

- 19" rack mount design of 1U height.
- Convert TCP/IP data and RS 422 for long distance use.
- Synchronously work together with voice alarm panel and wireless control.
- One communication control port by RJ 45 type.
- One power indicator.
- One serial communication part for write in or change IP address.
- AC 110V or 230V operation.
- Support DHCP compatible routers, switches, bridges, gateway, Modem, Intelnet , 2G, 3G, 4G, multicast, unicast arbitrary network structure.

SPECIFICATION:

Model	MVC-DC	
Communication Control Port	RJ45 Port	
Communication Protocol	RS232,RS422 & TCP/IP	
Communication Speed	4800/9600dps	
Power Consumption	<10W	
Power Supply	Ac110 or 230V, 50-60Hz	
Dimentions	484 X 123 X 44mm	
Weight	2.72kg
